Answer: C

NEW QUESTION: 4
Note: This question is part of a series of questions that use
the same set of answer choices. An Answer choice may be correct
for more than one question in the series.
A company has a deployment of Windows Deployment Services
(WDS), the Microsoft Deployment Toolkit
(MDT), and the Windows Automated Installation Kit (WAIK).
You are preparing to capture an image of a Windows 7 reference
computer. You plan to deploy the image
to new computers that have the same hardware as the reference
computer.
You need to ensure that the captured image contains the device
drivers from the reference computer. What should you do?
A. Run the Dism command with the /Add-Package option.
B. Run the Start /w ocsetup command.
C. Run the Diskpart command and the attach command option.
D. Run the Dism command with the /Mount-Wim option.
E. Add a boot image in WDS.
F. Use Sysprep with an answer file and set the
PersistAllDeviceInstalls option in the answer file to False.
G. Create a capture image in WDS.
H. Use Sysprep with an answer file and set the
PersistAllDeviceInstalls option in the answer file to True.
I. Run the ImageX command with the /mount parameter.
J. Use Sysprep with an answer file and set the
UpdateInstalledDrivers option in the answer file to No.
K. Use Sysprep with an answer file and set the
UpdateInstalledDrivers option in the answer file to Yes.
L. Run the Dism command with the /Add-Driver option.
M. Run the PEImq /prep command.
N. Run the BCDEdit command.
Answer: H
Explanation:
Explanation/Reference:
10357 30213
Persisting Plug and Play Device Drivers During generalize
You can persist device drivers when you run the sysprep command

with the /generalize option by specifying the PersistAllDeviceInstallssetting in the Microsoft-Windows-PnPSysprep component. During the specialize configuration pass, Plug and Play scans the computer for devices and installs device drivers for the detected devices. By default, these device drivers are removed from the system when you generalize the system. If you set PersistAllDeviceInstalls to true in an answer file, Sysprep will not remove the detected device drivers. For more information, see the Unattended WindowsSetup Reference (Unattend.chm).
