D. When a user from R&D sends an e-mail with an encrypted ZIP file as an attachment to , he will NOT be prompted by User Check.

Answer: C

NEW QUESTION: 3

An IBM Content Manager solution designer is designing a new system for a magazine company. Each magazine issue is an item in the item type MAGANIZE. Each item has multiple child components in the component ARTICLES representing the articles in that issue.

In addition, there is an item type AUTHORS containing information of authors who work for the magazine company. The solution designer decides to create references between ARTICLES and AUTHOR to indicate which authors wrote which articles.

Which of the following statements is true?

A. The creation of the reference will fail since it cannot use

a child component.

B. The designer has to create the reference with delete restrict option for this design to work.

C. This item type can create multiple references to store multiple authors per article.

D. The item type can only use one reference since it refers to a child component.

Answer: C
