NEW QUESTION: 1
Which one of the following four statements regarding counterparty credit risk is INCORRECT?
A. The exposure at default is variable due to fluctuations in swap valuations.
B. Dynamic collateral provisions often increase counterparty risk considerably.
C. The exposure at default can be negatively correlated to probability of default.
D. Counterparty credit risk refers to the inability to realize gains in a contract with a counterparty due to its default.
Answer: A

NEW QUESTION: 2
Your client is a major office supply manufacturer and Bigmart

is one of its major retail organizations as shown in the following organizational structure:

The client assigned different sales representatives to sell office supplies directly to individual stores based on geographic territories (east, west, central). They want visibility into purchasing activities (orders, revenue, accounts receivable, aging, and so on) per individual store because they want to use the profitability figures of the different geographic regions.
Occasionally, Bigmart's bills are paid by their parent company, Bigmart Conglomerate. Therefore, for some orders, you must invoice Bigmart Conglomerate directly. The following two approaches are being considered to fulfill the use case by the client.
Approach A:
1. Set up Bigmart Conglomerate as Party.
2. Set up Bigmart HQ and Stores as party sites.
3. Set up one account to represent Bigmart.
4. Link party sites to Party and account as appropriate.
Approach B:
1. Set up Bigmart Conglomerate, Bigmart HQ, and each store as individual parties.
2. Set up one account each for Bigmart Conglomerate and individual stores.
3. Create account relationships between Bigmart Conglomerate and the account representing each store.
What will best fit the client's use case?
A. approach A
B. approach B
C. approach A and B
D. neither approach A nor B
Answer: D

NEW QUESTION: 3
Windows Server

A. L2TP
B. lKEv2
C. SSTP
D. PPTP
Answer: B
Explanation:
An IKEv2 VPN provides resilience to the VPN client when the client either moves from one wireless hotspot to another or switches from a wireless to a wired connection.

This ability is a requirement of VPN Reconnect
