Answer: A,B

Explanation:

Explanation

The %TUN-5-RECURDOWN: Tunnel0 temporarily disabled due to recursive routing error message means that the generic routing encapsulation (GRE) tunnel router has discovered a recursive routing problem. This condition is usually due to one of these causes:

- + A misconfiguration that causes the router to try to route to the tunnel destination address using the tunnel interface itself (recursive routing)
- + A temporary instability caused by route flapping elsewhere in the network Reference:

<https://www.cisco.com/c/en/us/support/docs/ip/enhanced-interior-gateway-routingprotocol-eigrp/22327-gre-flap.html>
