NEW QUESTION: 1

A group of users stated that they can see the Lead Analysis Dashboard you set up, but cannot see reports on the page. What is the problem and how will you fix it?

- A.** The users do not have access to the reports. So you will add these reports to the user's profile.
- B.** The users do not have the privilege to view dashboards. So, you will go to the Role Management page to add the Manage Dashboards privilege to the user's role.
- C.** The users do not have access to the reports. So, you will

add the user's role to the Shared Custom Analyses folder in which the reports are saved.

D. The reports are not connected to the dashboard properly. So, you will go to the Manage Dashboards page to delete the reports from the dashboard and add them again.

E. The users do not have access to the dashboard. So, you will go to the Content Management page to add the user's role to the dashboard.

Answer: C

Explanation:

Explanation/Reference:

Explanation:

When a folder is created, it becomes visible on the Reports Homepage. All users with access to the Shared Custom Analyses folder will see newly created Company Wide Shared folders. If needed, visibility to the shared folder may be restricted by linking user roles to it. If no user roles are linked to the folder, visibility remains public.

Note on the exact procedure:

To set up user visibility to a shared report folder

1 In the upper-right corner of any page in Oracle CRM On Demand (not Oracle CRM On Demand Answers), click the Admin global link.

2 On the Admin Homepage, in the Content Management section, click the Content Management link.

3 On the Content Management page, in the Report Folders section, click the Shared Custom Analyses link.

The Folders List page displays all subfolders for the Shared Custom Analyses parent folder.

NOTE: All users have visibility to the Shared Custom Analyses root folder.

4 Then you can:

* Click the Folder Name to set visibility to the top-level folder.

* To restrict visibility to a subfolder, click the Subfolders link until you reach the appropriate folder. Then click its name in the Folder Name column.

5 On the Folder Details page, click Add Roles.

6 Click the Lookup icon next to each field to link user roles.

7 To remove a user role from having visibility to a report folder, click Remove.

8 Click Save.

9 If you set visibility for a subfolder, you can click the folder name next to Parent Folder to go back to the listing of its subfolders.
