NEW QUESTION: 1

Which statement about using the Answer File Generator to load a
Cisco Unified Communications virtual machine is true?
A. The configuration file should be placed inside an ISO file
and mounted on the virtual machine.
B. You must copy the output text to a file named
platformConfig.txt.
C. The answer file can be used only when performing the new
identity process to load the Cisco Unified Communications
virtual machines.
D. Each host should be copied to its own configuration file.
Answer: D

NEW QUESTION: 2
Your company plans to use Office 365 and Microsoft SharePoint
Online.
Another employee provisions the company's Office 365 tenant.
You discover that the employee can create and manage SharePoint
site collections.
You need to prevent the employee from creating or managing site
collections. From which role should you remove the employee?
A. Service administrator
B. Site collection administrator
C. Global administrator
D. SharePoint Online administrator
Answer: C
Explanation:
Explanation/Reference:
Explanation:
The question states that "Another employee provisions the
company's Office 365 tenant". The person who provisions an
Office 365 tenant will automatically be assigned to the Global
administrator role. In Office
365, a Global administrator is also a SharePoint Online
administrator.
We could prevent the employee from creating or managing site
collections by removing the employee from the SharePoint Online
administrator role. However, as a Global Administrator, the
employee could add himself/herself back to the SharePoint
Online administrator role. Therefore, we should remove the
employee from the Global Administrator role.

NEW QUESTION: 3
A mainframe customer is considering moving from a native tape
environment to a virtualized environment across two sites. A
study has shown that it needs more than one IBM TS7700 at each

site for performance and capacity reasons.
What is the benefit of using IBM TS7700 hybrid grid?
A. It permits a combination of IBM TS1130 and IBM TS1140 drives in one cluster.
B. It allows clusters to connect using both FC and IP networks
C. It provides double the number of logical volumes.
D. It allows the customer to write data to the optimal storage hardware for each workload type
Answer: D

NEW QUESTION: 4
A company has locations in multiple regions. The company develops solutions based on Power Apps and Power Automate.
You need to recommend features to support the implementation.
Which Power Platform features should you recommend? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.
