NEW QUESTION: 2

DRAG DROP

You need to ensure that least cost routing is used in the Los Angeles and Houston offices for local calls after the gateway is deployed. The solution must meet the technical requirements. Which route should you assign to each public switched telephone network (PSTN) usage?

To answer, drag the appropriate route to the correct PSTN usage in the answer area. Each route may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.

Answer:

Explanation:

NEW QUESTION: 3

Which way to influence path selection with EIGRP is preferred?

- A. changing the delay, even if it must be done on multiple interfaces
- B. changing the bandwidth, because that is what Cisco recommends
- C. changing the bandwidth, because it does not have any impact on other router features
- D. changing the bandwidth, because it must be done only on one interface along the path

Answer: A
