D. Azure Traffic Managerã•@æš<æ^•

Answer: B

Explanation:

Explanation

Azure Standard Load Balancer supports availability zones scenarios. You can use Standard Load Balancer to optimize availability in your end-to-end scenario by aligning resources with zones and distributing them across zones

NEW QUESTION: 2

Who should be responsible for enforcing access rights to application data?

- A. Security administrators
- B. The security steering committee
- C. Business process owners
- D. Data owners

Answer: A

Explanation:

Explanation

As custodians, security administrators are responsible for enforcing access rights to data. Data owners are responsible for approving these access rights. Business process owners are sometimes the data owners as well, and would not be responsible for enforcement. The security steering committee would not be responsible for enforcement.

NEW QUESTION: 3

To which ABAP Dictionary definition can you assign fixed values?

- A. Domain
- B. Component of a structure
- C. Field of a transparent table
- D. Data element

Answer: A
