E. 新しくã•ã•„ãƒ‡ãƒ•ã‚¤ã‚¹ã•®ç™»éŒ²

Answer: C,D

Explanation:

Explanation

Explanation/Reference

These options are available only if your company has integrated the My Devices portal with an MDM system that supports these features. Many companies use an MDM system to manage employees' mobile devices. Choose the appropriate option:

*Full Wipe resets your mobile device to its default factory settings, removing installed apps and data. You might choose this option if you have lost your device or are replacing it with a new one.

*Unenroll removes only those applications and settings installed by your company. Your other apps and data remain installed on your device. You might choose this option if you no longer need to use the device at work.

NEW QUESTION: 2
A risk management program would be expected to:
A. maintain residual risk at an acceptable level.
B. implement preventive controls for every threat.
C. reduce control risk to zero.
D. remove all inherent risk.
Answer: A

Explanation:

Explanation/Reference:

Explanation:

The object of risk management is to ensure that all residual risk is maintained at a level acceptable to the business; it is not intended to remove every identified risk or implement controls for every threat since this may not be cost-effective. Control risk, i.e., that a control may not be effective, is a component of the program but is unlikely to be reduced to zero.

NEW QUESTION: 3
A network engineer planning for wireless connectivity in large office building. Currently, the office building contains both legacy and newer devices.
Which of the following wireless network routers should engineer select for the fastest throughput for all wireless devices in the office building?
A. 802.11n
B. 802.11g
C. 802.11ac
D. 802.11b
Answer: C
